

# Host an Energy Saving Lighting Fair at your facility

Join the growing list of employers who want the most for their workers. Help protect the environment by reducing the growing demand for energy.

A **Lighting Fair** provides your employees an opportunity to purchase energy efficient lighting. Use of this lighting will help them save on future residential electric bills.

Help your employees save money, energy, and help protect the environment.

Made possible by:

## How does the **Lighting Fair** work?

The **Lighting Fair** is sponsored by New Jersey's Clean Energy Program. TechniArt is the approved vendor and a national ENERGY STAR® partner. Your company becomes the host.

### TechniArt makes hosting simple!

- You provide the Space at your Facility and Schedule a Date and Time that's convenient. It's that simple!
- We handle the set up, movement of inventory, and sales. We are a cash and carry retailer and all products we sell have a manufacturer warranty.
- Our goal is to provide the most useful and reliable lighting products on the market. We have an excellent track record, executing more than 500 events at some of New England's largest employers.
- TechniArt's sales team is very knowledgeable and will provide your employees with expert advice on how to most efficiently light residential applications.

## Why use ENERGY STAR® Lighting?

- **Savings!** 66% less energy usage – helps the environment and saves the user money.
- **Convenience!** Change bulbs less often – bulbs last up to 10 times longer.
- **Value!** Thanks to the New Jersey Clean Energy Program, ENERGY STAR lighting is available to residents at the lowest cost.

## Product Examples
